

**Amendments to the Claims:**

The listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-8 (Cancelled)

9. (new) A supporting frame structure for a motor vehicle, comprising:  
member-type elements and  
junction elements connecting the member-type elements,  
wherein

at least one of the junction elements is a cast-steel element, and

at least one of the member-type elements is a rolled steel profile.

10. (new) The supporting frame structure as claimed in claim 9,  
wherein at least one of the member-type elements and the junction elements is  
formed from high-quality steel.

11. (new) The supporting frame structure as claimed in claim 9,  
wherein at least one of the member-type elements and the junction elements are  
formed from high-strength steel.

12. (new) The supporting frame structure as claimed in claim 9, wherein at least one of the member-type elements and the junction elements have wall thicknesses matched to the load.

13. (new) The supporting frame structure as claimed in claim 9, wherein a connection of the member-type elements to the junction elements is a mechanical joining connection.

14. (new) The supporting frame structure as claimed in claim 9, wherein a connection of the member-type elements to the junction elements is a fusion welding connection.

15. (new) The supporting frame structure as claimed in claim 9, wherein a connection of the member-type elements to the junction elements is an adhesive connection.

16. (new) The supporting frame structure as claimed in claim 9, wherein a connection of the member-type elements to the junction elements is a brazed connection.
